

Oregon Health Authority

Psychiatric Residential Treatment Facility Authorization

Comagine Health provides psychiatric residential treatment facility, or PRTF, authorizations for the Oregon Health Authority.

PRTF includes:

- Psychiatric residential treatment services, or PRTS
- Secure children's inpatient programs, or SCIP
- Secure adolescent inpatient programs, or SAIP

What Does Comagine Health Do?

Comagine Health performs Medicaid authorizations for some kinds of health care. The kinds of care are:

- Psychiatric residential treatment services, or PRTS. We do this for Oregon Health Plan fee-for-service, or open card, members who are up to 18 years old.
- Secure children's inpatient program, or SCIP. We do this for people who live in Oregon who are up to 18 years old. SCIP provides services to youth with greater needs than PRTS. You do not need to have insurance.
- Secure adolescent inpatient program, or SAIP. We do this for people who live in Oregon who are up to 18 years old. SAIP provides services to youth with greater needs than PRTS. You do not need to have insurance.
