Southern Nevada Pathways Community HUB Client Testimonials

Comagine Health is collaborating with local partners to improve health and health equity in Clark County, Nevada by establishing the Southern Nevada Pathways Community HUB (SNPCH). SNPCH creates a network to address the health-related needs of community members with the highest risk for poor health outcomes. The HUB has had a direct impact on the lives of Clark County residents.

"The motive of this letter is to express how sincerely grateful I am for the help this program has offered. [My CHW] has helped me overcome the difficulties and struggles I was facing. Her help and compassion has been essential to me. She was always willing to provide me with different resources such as food, transportation, schooling, hospitals, and dentists. I would like to refer everyone to this program, especially all the women who have needs like mine."

Yadira G.
Pathways HUB Client

"I want to say thanks to [my CHW] and the helpful program for pregnant women. From the beginning, she was very kind to me and offered prenatal resources information. I am very grateful for all the information and for her positivity. Thank you for all the support!"
